Installing PSLAgent-Beta

O PSLAgent Beta

PCXCOM	PSLAgent	
	Please enter your profile credentials	
	password	
	Get New Profile >	

The PSLAgent application will have started and the following screen should appear.

You will have been provided with the information to enter into this screen by your Supervisor or Team leader. Please contact them if you do not have these details at hand. You can close the application and resume from this point when you can.

Once you have entered the details, click [Get NewProfile] and after a few moments you will be presented with a familiar logon screen.

Login and you can begin to use PSLAgent in the same manner as you have been using Operator.

PSLAgent desktop shortcut will look similar to this image.
